

A collage of medical and pharmaceutical images. In the foreground, a pile of white powder sits on a dark surface. To the right, a syringe with a needle is visible, along with a vial containing a yellow liquid. In the background, a document with text and a circular logo is partially visible. The overall scene suggests a laboratory or clinical setting.

# Class A

# Paraphernalia

# How to tell

- Sudden change in behaviour
- Mood swings; irritable and grumpy and then suddenly happy and bright
- Withdrawal from family members
- Careless about personal grooming
- Loss of interest in hobbies, sports and other favourite activities
- Changed sleeping pattern; up at night and sleeping during the day
- Red or glassy eyes
- Sniffly or runny nose

# THE GURN

Do you recognise  
this kid?

So what happens?

# Deciphering emojis

Emojis have become a popular way to add emotional cues to text messages and social media posts, especially among teens. In some cases, young people use the colorful symbols as a form of cyber shorthand:

Sneak out or  
let's sneak out

Say you are  
studying

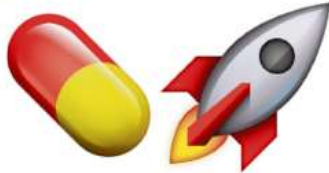

Don't tell parents

I'm a witness to cyber  
bullying or I can see  
what you are doing

Smoke marijuana

Get high off pills

I'm going to kill you

Male  
parts

Female  
parts

Send nude  
photos

Are you underage  
or over 18?

Sex
